

**Thank you for participating in the City of Buffalo's
We Save Home energy rebate program!**

**Due to overwhelming customer requests for rebates,
2017 annual rebate funds have been depleted.
The City of Buffalo will continue to accept and
process rebate applications for approval in 2017;
however, rebates will not be payable until 2018.**

What's Next...

- Submit your rebate application as you would normally.
- Once approved, you will receive a letter confirming your rebate was approved and the rebate amount.
- Qualifying rebates will be paid after January 1, 2018.

Again, thank you for participating in the City of Buffalo's energy rebate program and helping us meet our goal of reducing energy consumption by 1.5% annually.

If you have questions, please call 763-682-5370 during weekday business hours.

City of Buffalo

If you have questions while completing this form, please contact your hometown electric utility weekdays during business hours for assistance.

Buffalo, MN 55313

Checklist For Appliance Rebate Application:

- Copy of dated sales receipt
- UPC Code and ENERGY STAR logo from package for each type of bulb
- Completed Application

2017 Residential CFL Rebate Instructions

By participating in the We Save program, you can save energy and earn a rebate when you purchase ENERGY STAR® certified Compact Fluorescent Light (CFL) bulbs in single or multi-packs.

What rebate can I earn?

\$2 per bulb or purchase price, whichever is less* (max. rebate \$100)
* *Rebate may not exceed purchase price.*

What does it mean to be an ENERGY STAR Certified Light Bulb?

- **Save approximately \$80** in electricity costs over their lifetime.
- **Use 70 to 90% less energy** than traditional incandescent bulbs.
- **Last at least 15 times longer** than traditional incandescent bulbs.
- Produce about **70% less heat**, making them safer to operate while decreasing energy costs associated with home cooling.
- Meet strict performance requirements and carry a minimum 2-year warranty.

Which CFLs should I buy to replace my current incandescent bulbs?

When replacing bulbs you should think about lumens instead of watts. Lumens measure the actual amount of light being put out, where watts are a measurement of how much electricity something uses.

Old/Conventional Light Bulbs		Brightness (Minimum Lumens)	ENERGY STAR CFLs (watts)
Traditional Incandescent (watts)	Energy Saving Halogen (watts)		
40W	29W	450	9 to 11W
60W	43W	800	13 to 14W
75W	53W	1,100	18 to 20W
100W	72W	1,600	23 to 27W

How Do I Qualify?

- Residential customers receiving electric service from a local municipal electric utility that is a participating member of MMPA are eligible for a rebate when they purchase ENERGY STAR certified CFLs in single or multi-packs and install them in their home.
- Customer must apply for rebate within one year of the purchase date shown on the sales receipt.
- Total rebate limit of \$100 paid to customer. Limit one rebate per customer account per year.
- Rebated bulbs may not be used for resale.
- Rebate applications must include a copy of dated sales receipt and the UPC code and ENERGY STAR label from package for each type of bulb. Incomplete rebate applications will not be processed.
- Rebate requests are processed on a first-come first-serve basis. Annual rebate funds are limited. Rebate programs, qualifications, and amounts are subject to change at any time.
- Qualifying customers must apply for rebate by November 30, 2017.

City of Buffalo

2017 Residential CFL Rebate Application

COMPLETE THESE FOUR EASY STEPS TO GET YOUR REBATE.

STEP 1: CUSTOMER INFORMATION

Name:

Account #:

Phone:

Address:

City:

ZIP Code:

If different from above, enter name and address where rebate should be sent.

Name:

Phone:

Address:

City:

ZIP Code:

STEP 2: ENTER INFORMATION FOR CFL BULBS

Purchase Price is price paid for number of bulbs listed on the same row and must match attached sales receipt.

Manufacturer Name	Model Number	CFL Wattage	# Bulbs Purchased	Purchase Price
				\$
				\$
				\$
				\$
